

EXPLORE THE FUTURE OF WORK TODAY - INTELLIGENT OPERATIONS

VIDEO TRANSCRIPT

0:01 The future of work is now and we're
0:03 redefining it with Intelligent Operations.
0:06 Delivering transformational value
0:09 we combine technology and human ingenuity
0:12 to help clients in different industries worldwide
0:16 to reshape their future by developing
0:18 all aspects of the organization.
0:21 [Music]
0:22 Using our uniquely powerful, constantly
0:25 evolving platform we draw on data from
0:27 over a thousand client engagements to
0:29 rapidly scale innovation accelerating
0:32 our client's journey to Intelligent Operations.
0:34 With people as our most
0:36 powerful differentiator we've invested
0:38 heavily in learning and development to
0:41 future-proof their skills.
0:42 One of the largest human and machine
0:44 workforces we've delivered
0:46 transformational value to over 850
0:48 clients, driving change at scale.
0:52 For example we helped a North American
0:54 retailer use intelligent automation, data and analytics
0:57 so that their supply chain
0:59 delivered on customer needs.
1:01 By introducing a global hotel chain to
1:03 AI and machine learning we cut their
1:05 financial transaction processing times
1:07 in half reducing manual errors and
1:10 We partnered with a multinational
1:11 pharmaceutical company to transform

1:13 delivery of digital content, shrink

1:15 production turnaround and increase speed to market.

1:19 We're truly in a class of our own

1:21 and you can be too,

1:23 change more when you work at the heart of change with Accenture Operations

1:28 Explore the future of work today
