Defined by the industry for the industry

Seven leading upstream companies have come together to help define processes for SAP S/4HANA Cloud. We call this collaboration: "Defined by the industry for the industry." The enterprise solution in the cloud is preconfigured with market-leading processes for the end-to-end enterprise.

We kept you in mind

THE THINKING

- 1 Adopt market standards for non-differentiating processes
- 2 Harness the latest technology innovation in the public cloud
- 3 Draw from Accenture and SAP's deep experience of co-developing oil and gas industry solutions

YOUR NEW WAY OF WORKING

- 1 Respond to changing market conditions faster with industry-leading practices and next-generation technologies
- 2 Simplify operations—free up resources for differentiated activities

Change your upstream oil and gas company forever
