accenture
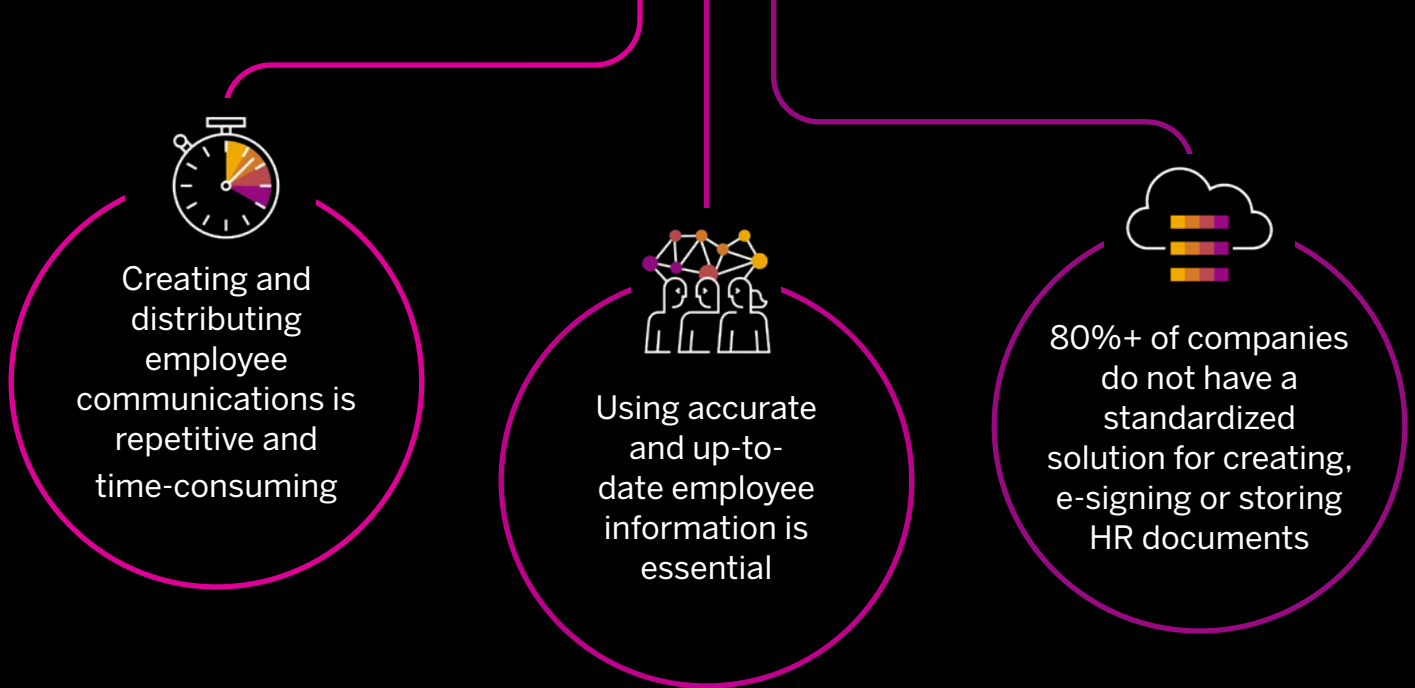

Make HR communications fast and easy

Simplify the creation, distribution, and storage of your employee-related documents.

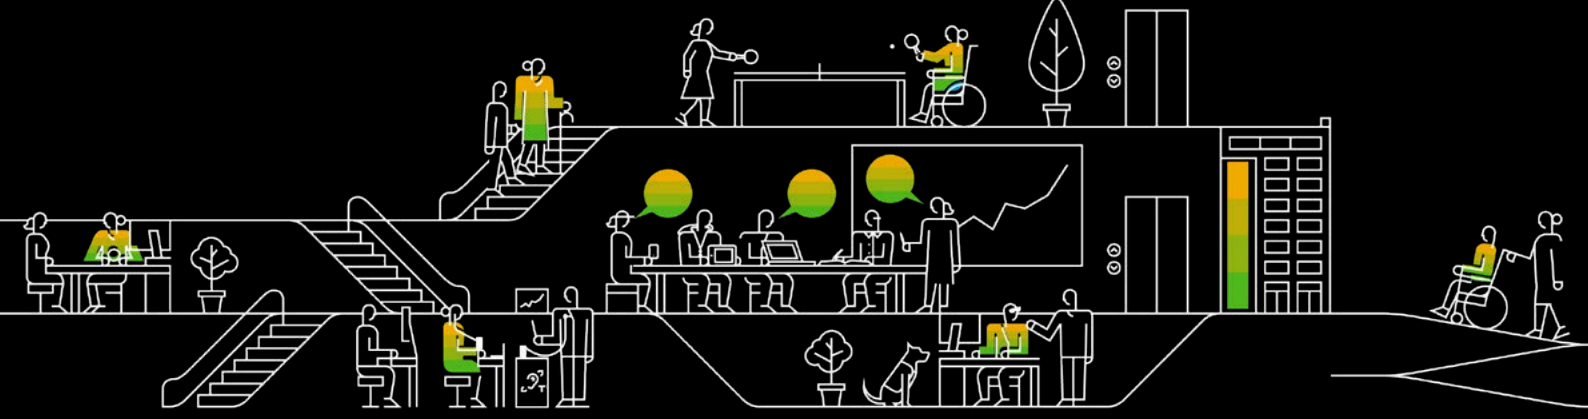

CHALLENGES

Creating and distributing employee communications is repetitive and time-consuming

Using accurate and up-to-date employee information is essential

80%+ of companies do not have a standardized solution for creating, e-signing or storing HR documents

---

SOLUTION

Integrate Accenture Document Composer with **SAP® SuccessFactors® Employee Central, Recruiting, Onboarding, and Compensation** to:

Create documents quickly and easily with reusable text modules and data from the SAP Success Factors solution.

Get instant access through integration with SAP SuccessFactors Employee Central, Recruiting, Onboarding, and Compensation as well as case management and e-signature systems.

Design and create beautiful and standardized documents, professionally.

Distribute easily from a single screen using built-in SAP SuccessFactors approval workflows and notifications.

Maintain confidentiality using role-based access permission from the SAP SuccessFactors solution.

**Store documents safely and securely** with retention policies that support GDPR compliance.

BENEFITS

Streamline your employee communications to:

Save valuable HR time and resources

Reduce document printing and distribution costs

Deliver a better experience across all employee communications

---

EVIDENCE

Deliver optimal communications **quality and efficiency:**

> "Now is the time to digitize HR even more as we start uploading in our cloud personnel archive today. The project has been a long time coming and we have only just started – it will be great when, during this year, employees get access to their own digital staff folder. Today is a good day at work."

Carina Knudsen, Coordinator, System Support, HR Tech, Tryg Denmark
