

What is my impact?

VIDEO TRANSCRIPT

00:00 Impact is about creating an equal environment where everyone has the same chance to succeed.

00:07 Impact is firstly looking after your own mental health and well-being and then making sure to look after the mental health and well-being of others around you.

00:14 Inspiring and empowering our people.

00:16 Being able to have a positive lasting effect on something or someone.

00:20 Making sure everybody has an equal chance of having their voice heard.

00:25 Supporting our community by enabling and enhancing Accenture's family-friendly work culture.

00:30 Giving everyone the flexibility they need to fulfil their family commitments at home and achieve their goals at work.

00:38 I'm really proud to see the impact that Accenture is making. I'm really proud to be part of that journey.
