

Accenture | Finastra: Soaring Opportunities

Video Transcript

Accenture and Finastra are delivering ground-breaking innovation – enabling financial services firms to capitalize on best-of-breed solutions, connect and enhance their operations and maximize value. Having won partner of the year award for the past four years, Accenture has over ten years of experience implementing Finastra solutions.

With more than 400 practitioners certified on various Finastra platforms and multiple delivery centers across the world, Accenture is designed to provide a robust 24-hour delivery model.

Together we help clients in payments, lending, trade finance, treasury & capital markets, and North American community markets enhance their operations.

Our strategic partnership has enabled us to offer clients more choice, scalability and flexibility in how they take advantage of the applications.

Our exceptional joint innovative offerings include:

- Payments Platform as a Service
- Digital Treasury as a Service
- End to end Lending as a Service
- SME Banking Insights App

We continually strive to add value as the Leader for Fusion Global PAYplus & Loan IQ System Integrations.

Our innovation agenda has enabled Accenture to deliver over 40 use cases on FusionFabric.cloud.

This positions us uniquely to help clients connect, transform and thrive in an open, fluid, digital world.

The Accenture Finastra Innovation Center in Bangalore explores the future of Financial Services, starting with a state-of-the-art connected-banking design studio.

Using an array of new technologies, Accenture has developed more than 40 assets and accelerators for Finastra solutions.

Our AI driven touchless testing runs more than 2,400 test scripts and scenarios for impactful customer experiences, automation opportunities, and improved project delivery quality and efficiency.

Together, Finastra and Accenture are committed to delivering ground-breaking innovation – enabling financial services firms to proactively capitalize on the disruption transforming the industry.

Speak to us now to find out how you can take advantage of our combined solutions.
