

POWERING THE NEW INDONESIA

VIDEO TRANSCRIPT

00.01 We live in a fast-paced everchanging global environment. To remain market relevant, Indonesia needs to transform itself by pivoting to the New.

00.09 President Joko Widodo sets the stage when he said, "We have no other choice but to leave the old ways and adapt to the new."

00.17 This is a big task. Accenture aligns these national priorities to the new.

00.25 We believe as a leading global consulting company, we bring our best thought leadership and capabilities to help organizations transform.

00.34 And, for more than 50 years, Accenture has been committed to Indonesia. We're proud to support Indonesia's vision to Wise Pivot to the New

00.44 The Wise Pivot strategy involves a series of decisions about how to transform, grow existing businesses and how to scale new businesses using the right investment strategy. Accenture is able to help on the journey to the New Indonesia by wisely pivoting, for example
Providing a practical point of view on **Technology Innovation**. Organizations can embrace the mindset and strategy toward a New technology adoption that could create a clear vision of what the organization should look like in the future.

01.13 **Executing Digital Transformations.**

Through integrated Social-Mobile-Analytics and Cloud (SMAC), organizations can redefine how to serve connected customers and operate their connected enterprises.

01.26 **Partnering on Industry X.O.**

Utilize advanced technologies to reinvent products and services from design to manufacturing and support, accelerating operational efficiency and enterprise-wide growth.

01.40 **Enabling the Future Workforce.**

Organizations need to reimagine the nature of work today – redefining the roles of people, shifting your workforce to new business models and scaling up "New Skills" to harness the power of intelligent technologies. With the right people to lead and the ability to innovate, Accenture commits to play a pivotal role in powering the new Indonesia. Starting now.
