

Introducing Advanced Technology Center Thailand | Accenture video transcript

Welcome to our first Innovation-Led Delivery center, Accenture's Advanced Technology Center in Thailand, or ATCT.

ATCT works hand in hand with Accenture Thailand as one team.

Our work often revolves around new technologies to offer different solutions and enhance business value for our clients.

There are currently about 50 centers located in different countries around the world.

We at ATCT are ready to drive and expand our diverse innovation in Thailand and in this region.

We bring the best capabilities in many technology areas to help you reshape your business.

These include Intelligent Cloud Solutions, Web and Mobile Applications, DevOps, Cyber Security, Emerging technologies, and many more.

As ATCT is always at the forefront of new technologies, we are ready to deliver solutions to address our clients' challenges and become part of their success, like what our other centers have done for their clients around the world.

Not only deliver solutions to address business requirements for our clients, but we also constantly equip our people with updated knowledge and skills to keep enhancing their competence and capabilities.

As technology is constantly evolving to meet ever-changing requirements.

Are you ready to join us to overcome the new challenges?
