Information Security at Accenture	Accenture logo
Protecting information for • Our clients • Our people • Accenture	
"Maintaining the trust of our clients is at the heart of what we do at Accenture. We continually evolve our Information Security organization, as evidenced by the innovative technology, training and security processes we put in place." Kris Burkhardt Chief Information Security Officer	
Running client engagements securely is a top business priority.	
For client projects, we develop and monitor **an end-to-end security risk management plan.**	Icon: • shield with a closed padlock
Each plan includes physical, application, infrastructure and data security.	
Every client has a dedicated information security lead to deliver the plan.	
Certified secure by BSI ISO/IEC 27001:2022 and 27701:2019	Logos: • BSI • ISO • IEC
Receiving high scores from major cyber security risk rating companies We use these results to **dynamically improve our security posture**	Logos: • Bitsight • RiskRecon • SecurityScorecard • UpGuard

Extending our capabilities • Ecosystem partner technologies to innovate and stay ahead of the curve • Accenture Managed Security Services to scale and deliver	
Our people work from a combination of • Accenture offices • Client locations • Home offices • On the move	Icons: • Office buildings • Home • Plane, train and devices
We have technology in place to **securely deliver client work from anywhere.**	
All Accenture people complete **core** information security and data privacy training to stay up-to-date on security practices and threats.	
People in data-sensitive roles Infrastructure and cloud architects App developers Active directory administrators complete **specialized training** to increase knowledge about role-specific threats, concepts and practices.	
Our risk-based, custom training Keeps learning interesting • Innovative videos • Gamified training • Hands-on CyberFests • Immersive VR • Robust phishing testing 45 industry awards	
Our security defenses protect all areas of the business	
And defend against threats **today and tomorrow**	
today Driving innovations that safeguard and protect **Recognized for our innovation**	Logo: • CSO awards

Cloud Control Factory
reducing the time and effort needed to design, build, deploy and support cloud compliance controls
• **8,000**
  vendor cloud accounts secured
• **1,000**
  controls released in one year
 	
Advanced Attack Surface Management
extensive new detection and response capabilities supplement our core defenses
• **Identifies and eliminates**
  exposures with rapid remediation
• **Provides multiple layers**
  of detections across the attack surface
	Logo:
	• CSO awards winners

We ditched passwords And adopted secure, phishing-resistant **passwordless technologies**	Icons of devices, where passwords spin out and disappear
Our people love it!	
Cyber ready to respond to incidents today **Always adapting** to increase our risk resilience	

Tomorrow
We will remain vigilant and proactive, continually enhancing information security to:
• **Strengthen**
  defenses to address the changing threat landscape
• **Safeguard**
  our supply chain and technology infrastructure
• **Enhance**
  training that fortifies the "human firewall"—Accenture's first line of defense
• **Deliver**
  secure operations and client services
	Icons
	• Shield representing strong defenses
	• Circles flowing in a globe shape around a lock to represent a secure supply chain
	• Profile of a head with a lightning bolt representing learning
	• Globe with lines circling around to represent delivery
