

AJAV VIJ

EXPLAINS OUR

CAREER REBOOT

VIDEO TRANSCRIPT

At Accenture, we take inclusion and diversity seriously. We want everyone to feel valued, respected, and able to do their best work.

That's why we have the Career Reboot Program for women. This program helps women who've taken a break from work for more than 24 months. It helps them to come back to the workforce. We offer a nurturing environment, virtual collaboration tools, modern workspaces, and lots of employee-friendly benefits to make it easier for you to succeed.

As a part of the program, you'll learn from several Accenture leaders, you will get mentorship from experienced professionals, and have access to learning and development programs that we conduct—and all as part of your career at Accenture. You can join us as a full-time employee or as an intern, and really take control of your career journey from here.

Over the past few years, our Career Reboot Program for women has helped many women return to the workplace and reach their full potential. We are certainly very proud to be recognized as a top employer in India for our commitment to inclusion and diversity.

This program has also been recognized globally by the Brandon Hall Group for the positive change it has made for women who chose to make their career comebacks with Accenture.

So, I encourage you to apply for the open positions and explore the opportunities waiting for you at Accenture. I look forward to welcoming you soon.
